Call: Jane Dumbleton  
Phone: 613-544-3400 X 2550 or  
E-mail: dumblej2@hdh.kari.net

**Program Highlights**

**Plenary Sessions:**

1. Early Intervention in Psychosis – A Family Perspective - Dr. R. Kamani and Ayaz Kamani
2. The role of brain imaging in the assessment, diagnosis, and outcome in First Episode Psychosis - Dr. Peter Williamson
3. The judicious use of antipsychotic medications in patients with First Episode Schizophrenia - Dr. L. Kola Oyewumi

**The Great Debate:**

Tackling psychosis early will have little impact on the outcome of schizophrenia.

For: Dr. Peter Williamson, Luke Finn, and Brenda Towns

Against: Dr. Paul Roy, Dr. Roz Kamani, Ayaz Kamani and Karin Carmichael

**Choice of Two Workshops:**

WORKSHOP #1: Managing Crisis in First Episode Psychosis

WORKSHOP #2: How to assess and make diagnosis in patients with First Episode Psychosis.

WORKSHOP #3: Reduction of family stress by minimizing expressed emotion.

WORKSHOP #4: The impact of appropriate rehabilitative options on recovery from First Episode Psychosis.

WORKSHOP #5: Public Education and Access to Early Intervention in Psychosis Programs - Are we doing enough?
